About me

I was born on the XXth of May, 1982. Since 2005 I have been professionally involved in industry and innovations in various stages of their development.

A passion for technology and analytical skills developed by playing chess help me to achieve my objectives. In the course of the work it was necessary to develop the skills of effective project and team management. I am goal-oriented type of person with practical approach to the industry and implemented solutions.

Achievements

Receiving patent No. 216259, a few other prototypes

Designing several dozen machines (prototypes and conveyors) that work in the industry, production management and implementations.

Chess- FIDE Master, Academic Team Polish Champion, Arbiter, sports instructor
